Scope of Work: Bellabeat Data Analysis Case Study

Analyst: VansH DhimaN

Stakeholders: Urška Sršen (CCO), Sando Mur (Executive Team)

Project Date: March 2026

1. Project Purpose

The goal of this project is to analyze smart device usage data from non-Bellabeat users (Fitbit dataset) to identify global consumer trends. These insights will be used to provide high-level marketing recommendations for Bellabeat to unlock new growth opportunities.

2. Business Task (The "Ask")

- What are the key trends in smart device usage?
- How can these trends apply to Bellabeat customers?
- How can these trends influence Bellabeat's marketing strategy?

3. Scope of Activities

The following table outlines the phases and descriptions of the activities to be undertaken.

Phase	Description
Prepare	Download and verify the Fitbit Fitness Tracker Data (CC0 Public Domain). Evaluate data using the ROCCC framework.
Process	Clean data using SQL or Python. Document the removal of nulls, duplicates, and outliers to ensure data integrity.
Analyze	Perform calculations to find correlations between activity, sleep, and time of day/week.
Share	Create a presentation with data visualizations for the executive team.

4. Out of Scope

- Analyzing Bellabeat's internal financial records or supply chain data.
- Executing the marketing campaigns (this is a recommendation-only project).
- Collecting new primary data from users.

5. Deliverables

The following deliverables will be provided upon completion of the project:

1. A summary of the business task.
2. A description of all data sources used.
3. Documentation of data cleaning/manipulation.
4. A summary of findings and supporting visualizations.
5. Three high-level marketing recommendations.

6. Milestones & Timeline

The project will follow the timeline and milestones listed below. All dates are approximate and dependent on the availability of necessary resources.

Milestone	Target Date	Activity
Milestone 1	Day 2	SOW Approval & Data Preparation
Milestone 2	Day 4	Data Cleaning & Initial Analysis
Milestone 3	Day 7	Visualizations & Final Presentation
